

Need Help?

Opioid Addiction Resources

Grant funded services at the following agencies are being made available to help transition people from incarceration back into their communities to ensure they and their families are connected to the services they need.

Any Iowan affected by opioid use disorder who is leaving jail or prison can benefit from these services which include: care coordination, recovery support services, and medication-assisted treatment.

The Iowa Department of Public Health has granted State Opioid Response funds for Corrections Liaison projects at the following agencies:
